

Hospital Insurance

can pay benefits that help you with the costs of a covered hospital visit.

How does it work?

Hospital Insurance helps covered employees and their families cope with the financial impacts of a hospitalization. You can receive benefits when you're admitted to the hospital for a covered accident, illness, or childbirth. The money is paid directly to you – not to a hospital or care provider. The money can also help you pay the out-of-pocket expenses your medical plan may not cover, such as co-insurance, co-pays and deductibles.

What's included?

- \$1,000 for each covered hospital admission - once per year
- \$200 for each day of your covered hospital stay, up to 60 days - once per year
- \$400 for each day you spend in intensive care, up to 15 days - once per year
- \$150 for emergency room treatment for a covered accident or sickness once per year
- \$100 for ambulance or \$500 for air ambulance transportation for a covered accident or sickness once per year
- \$250 for physician-ordered diagnostic procedure once per year
- \$750 or \$1,500 for outpatient surgery, depending on the procedure, to a calendar-year maximum
- \$1000 for covered inpatient surgery, once per year
- A travel benefit of \$.40 per mile, for up to three round trips (1,200 miles per round trip).*
- A lodging benefit of \$150 per night to lodge a companion during your hospital stay, up to 30 nights.

Why is this coverage so valuable?

- You get affordable rates when you buy this coverage at work.
- The cost is conveniently deducted from your paycheck.
